

STIHL GHE 205 SHREDDER

Powerful electric shredders with shredding units

The STIHL electric shredder GHE 250 is a versatile machine ideal for anyone looking to keep all corners of their garden tidy. Whether plant trimmings or woody garden material – the blade shredder can shred hard, soft, long and wide clippings quickly, reliably and efficiently. The sandwich-type blade unit with Multi Cut disc can also effortlessly shred medium-sized branches up to 30 mm thick. The powerful motor ensures smooth, efficient operation. The housing and feed chute provide a high degree of comfort and safety during operation. The large inclined feed chute makes it easy to feed foliage, branches and plant trimmings into the shredder. The STIHL GHE 250 electric garden shredder can be tipped onto its wheels and moved easily with 9 meters of cable.
