

STIHL RM 545T 17" LAWMOWER

- Wholegood: 20070493
- The STIHL RM 545 T lawn mower combines power with a robust design. Its polymer housing is petrol-resistant, which means it suffers no material changes if it comes into contact with petrol, and it is also UV-resistant. The RM 545 T has a height-adjustable and foldable handlebar to make working as comfortable and ergonomic as possible. Thanks to central 7-level cut-height adjustment, it's no problem to select your preferred cut height between 25 mm and 80 mm. The cutting width of this lawn mower is 43 cm. The 60-litre grass collection box supports quick progress when mowing the lawn, and has a fill-level indicator to let you know when it needs emptying. It is also easy to empty, thanks to the folding mechanism.
