

STIHL RME 443 ELECTRIC 16" LAWMOWER

- Wholegood: 20070477
- The RME 443 is a powerful electric lawn mower ideal for lawns up to 600m². With a 41cm cutting deck and a generous 55-litre easy opening grass catcher box, this mower is easy to use and easy to adjust to suit you, with a spring-loaded central cutting height adjustment and QuickFix clamps so the handlebar can be folded over in seconds. The highlift blade gives you a precise finish on your lawn by creating a strong air current, which makes the grass stand upright before cutting, and then efficiently sweeps the grass clippings into the box.
