Turbofarmer P40.7 CS - with Suspended Cab and Merlo CDC Dynamic Load Control

MERLO TURBOFARMER CS - the only farm handlers with cab suspension and CDC Dynamic Load Control!

Cab suspension - just like the best tractors - hugely reduces the level of whole body vibrations reaching the cab. Result - less driver fatigue and greater working efficiency. On startup, the CS cab rises 60mm on hydropneumatic struts and when operating can move through a total of 110mm. Longer days and harder working means drivers need every aid to stay sharp and safe - CS delivers.

CDC Dynamic Load Control - the 'State of the Art' load control system and only on Merlo farm handlers:-

- Automatic attachment recognition and load chart selection
- Free-zone bucket working
- Graphical and digital display of load, stability and position
- Weighing system

The Merlo Turbofarmer CS models offer the latest in driver comfort and efficiency, as well as the traditional Merlo performance, ruggedness and safety. Simply the best there is!

Merlo specialise in farm solutions - the CS models are but some of a 14-model Turbofarmer range, with other telehandlers as small as 1.8m wide and 1.77m high or as big as 12 tonnes capacity! All with easy to use, precise hydrostatic drive.

Ask C & O Tractors to see and try a Merlo. Great power, great comfort, great productivity and even a suspended cab!

Specialising in Solutions!
