

**GOLDEN
JUBILEE**

To celebrate 50 years of continuous Tractor production at New Holland's Basildon plant New Holland launched two limited edition Golden Jubilee models at LAMMA 2014. The T7.270 Auto Command and T6.160 Auto Command have been produced to commemorate half a century of production and innovation, during which time over 1.6 million tractors and 3.1 million engines have been built at the plant. Today the plant employs more than one thousand people dedicated to producing industry-leading tractors. The facility can accommodate more than 10,000 different product specifications and 85% of total production is exported across the globe.

Two ways to better Grassland this Spring

OPICO SWARD LIFTER

David Saunders, Fields Farm, Market Bosworth, Warwickshire

“Sward Lifting to remove compaction brings long term benefits.”

David Saunders of Fields Farm, Market Bosworth has been impressed with his OPICO SWARD LIFTER. "Sward-lifting breaks up the deep compaction in our soils making it dry enough to drive across fields in winter.

"It takes more than a month to fully appreciate the effects of sward-lifting. The benefits of having better drainage, and of improved nutrient uptake which in turn enhances grass growth, last for at least a year."

"Having looked at a range of grassland subsoilers, we found the OPICO SWARD LIFTER very well-designed. It causes minimal disturbance to surface grass cover. And the wider spacing of the subsoiler legs ensures a degree of soil stability is maintained, so livestock can be turned straight back onto the field."

OPICO SWARD SLITTER

David Fleming, Gledswood Farm, Melrose, Roxburgh

“Sward Slitting aerates the topsoil boosting grass growth.”

The OPICO SWARD SLITTER is designed to alleviate compaction in topsoil. David Fleming of Gledswood Farm, Melrose, has seen the benefits.

"I've done a lot of slitting with my OPICO SWARD SLITTER over the past few years, both on my own farm, and contracting for others.

"Slitting silage fields before and after cutting gets oxygen into the soil and boosts grass growth. Slitting also helps grazing ground recover after cattle.

"With a 6m width and 144 blades, my OPICO SWARD SLITTER covers ground quickly and effectively. It's easy to use and folds up hydraulically for transport.

"It's proven to be a robust machine, and always makes a very professional job of the slitting."

2 YEARS AT 0% FINANCE AVAILABLE ON ALL POLARIS UTILITY ATVS AND UTVS

Promotion available at 80% of the retail price with 4 + 20 monthly repayments*
