

## Funtington Official Opening

C&O's Depot Manager Matthew Davies and his team saw a great turn out for the official opening of the Funtington Depot. Nick Baird, from estate landlords Basil Baird, cut the ribbon at the new site alongside C&O's Managing Director Andy Coles, Sales Director Richard Spencer and Matthew Davies.

The event celebrated the move to brand new facilities offering increased workshop space, improved parts department and the addition of new brands to C&O customers. 'We are delighted that so many customers came along to join us in celebrating the opening of the new depot. It has taken a lot of work to get us to this new site and I'm very proud of what we can now offer to customers' said Matthew Davies.

Keys to a new Isuzu pick-up truck were handed over to David Mortimer by, new addition to the Funtington Sales team, Philip Prior at the event. The full range of Isuzu pick-up trucks are now available at Funtington and are supported on site by new, dedicated engineer Peter Will.

Also new to the depot is Kverneland. An impressive selection of Kverneland agricultural machinery was on display at the event, including a plough, fertiliser spreader and drill alongside a range of grassland machinery.

The official opening was very well supported by manufacturers' representatives and included displays of machinery from Wacker Neuson, Shelbourne Reynolds, Can Am, Mzuri, Walter Watson, Teagle, Quicke, Stihl, Gyru Star, Lynx Engineers, Wessex International, Warwick Trailers, Knight and Browns.

**'100 Years of Fordson, Ford and New Holland Tractors 1917-2017' published by Blue Force is now available at C&O Tractors' stores for £29.95**

## SERVICE OFFERS

It's not too late to book your  
Combine Harvester Winter Service.

.....  
Make sure your silage trailer is safe for  
the season ahead - trailer brake and  
light testing available at all depots.

.....  
NSTS testing - We have engineers across  
C&O who are NSTS qualified examiners and  
able to undertake this important annual  
inspection on all makes and model of  
sprayers. NSTS certification ensures that  
sprayers satisfy grower and supermarket  
protocols and the Sustainable Use Directive.

**NSTS testing £10 per metre excl.  
travel, £28 charge for certificate, +VAT**

## MZURI PERFORMS WELL FOR CUSTOMERS

Mzuri, specialists in strip tillage, have recently conducted a customer care survey as part of the company's continuous improvement programme. Sent to all their UK customers, the questionnaire returned a high number of responses, highlighting the manufacturer's technical and service excellence.

The survey measured user satisfaction levels with Mzuri at various customer touchpoints, from the initial contact and product demonstrations through to product performance and after-sales service, with the company being awarded consistently high marks across all areas. The Mzuri team's knowledge and expertise was particularly appreciated, with a staggering 98% of the respondents rating it as excellent or good. Furthermore, 9 out of 10 customers were impressed or very impressed with their machine demonstration, and the service back-up received the same high score. 95% thought staff professionalism, communication and speed of response was excellent or very good.

Mzuri drills were awarded equally good marks with 9 in 10 users being satisfied or very satisfied with the system. Specifically, the survey measured the product's performance in the areas of crop establishment, yields, fuel savings, labour reduction and soil health improvement.

Finally, the survey found that 100% of the respondents would recommend Mzuri to a friend, indicating deep levels of loyalty and trust in the brand.

Mzuri are continuing to strive for customer care excellence and have recently increased their warranty period to 2 years on 2017 products. Talk to your sales team about the range of products available from Mzuri or to enquire about a demonstration of the Mzuri Pro-Til 3T.
