Massey Ferguson 'S Effect' tractors introduced - delivering extra efficiency, comfort, safety and style

**Fieldstar 5 touch-screen option for all
Leading-edge design
New 95hp MF 5709 S joins the range**

Massey Ferguson 'S Effect' have been introduced across its entire range of high-spec Beauvais-built tractors at the Agritechnica Show in Hanover.

The new Massey Ferguson S Series line-up encompasses the MF 5700 S, MF 6700 S, MF 7700 S and MF 8700 S. "These tractors represent everything that's best in super-comfort, safety, straightforward engineering, stylish looks and solid service back-up – all in support of smart, sustainable farming," says Guillaume Dericbourg, Massey Ferguson Manager, Sales Engineering.

At the same time Massey Ferguson is extending the S Effect down to the completely new 95hp, MF 5709 S. Equipped with the same technology as found on the larger, MF 5700 S models, the tractors provide the same high-spec features in a compact package.

The MF 5709 S comes with the choice of either the Dyna-4 or Dyna-6 transmission, with brake-to-neutral and the further option of AutoDrive. The multifunction joystick, hydraulic system choice and sloping bonnet also make it the perfect loader tractor.
