C&O Tractors extends Kverneland offering to many more customers

C&O Tractors has strengthened its relationship with Kverneland by taking on an expanded territory. It means the full range of Kverneland products are now available from C&O Tractors' Wilton and Isle of Wight depots, joining the established Funtington depot.

As a result, existing Kverneland customers across South Wilts, Hampshire, West Sussex and the Isle of Wight will now be supported by C&O, taking over an area that was previously served by R Hunt Agricultural Engineers.

"We are delighted to be able to offer the full Kverneland range to many more C&O customers," says Dick Spencer, C&O Group sales and depot manager. "With high quality, innovation and durability, the Kverneland range will be a great addition to our offering at C&O."

With Kverneland-trained engineers and an extensive stock of parts and machines within the dealerships, aftersales and service for existing Kverneland customers will continue without interruption. Kverneland MD Joe Bell, was equally upbeat about the expanded territory for C&O.

"With R Hunt Agricultural Engineers' decision to cut its ties with Kverneland, we were in a position to offer much more territory to C&O," says Joe Bell. "In addition to giving existing Kverneland customers in South Wiltshire and Hampshire the service and support they have come to expect from a premium-brand machinery manufacturer, this development also creates an opportunity to find new business with many more C&O customers."

The Kverneland range includes an extensive range of soil preparation and seeding equipment, grass and forage products, diet feeders, fertiliser spreaders and precision farming technology.

EasyDrill

The most versatile drill on the market

Watch YouTube video of the Sky Drill in action at the AGRIL day at Tarrant Hinton

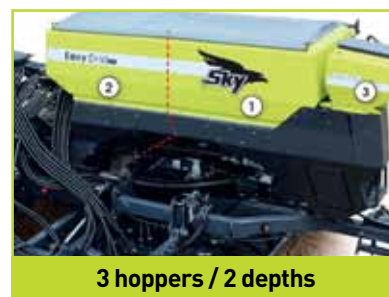

LOW DISTURBANCE ESTABLISHMENT

Designed for perfect seeding in no-till, min-till, & conventional establishment systems making it a truly versatile drill.

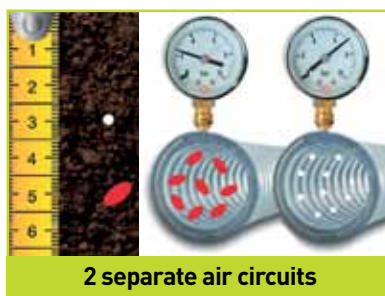

- Up to 3 separately metered hoppers
- Separate air circuit for grain and fertiliser
- Up to 250kg coulter pressure to ensure correct seed placement in any system
- Fully adjustable coulter and press wheel pressure to suit soil / weather conditions
- Low hp requirement (from 30hp/m)

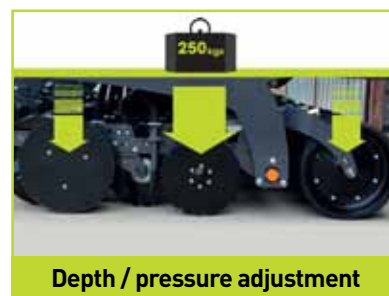

Versatile

3 hoppers / 2 depths

2 separate air circuits

Depth / pressure adjustment

No-till • Min-till • Into Cover Crops • Conventional

MINIMAL AND NO TILL DRILLS AT C&O FROM SKY AGRICULTURE AND MZURI

The Mzuri Pro-Til 3T drill and Sky Agriculture Easy Drill were both in action at the AGRIL field day at Tarrant Hinton. Watch videos of the drills in action on our You Tube channel www.youtube.com/candotractorsltd. Updates from the trial plots will be posted on our facebook page www.facebook.com/candotractorsltd

Key features of the PRO-TIL range

- Auto reset front tines
- Variable seed metering unit
- Two row sowing coulter (150mm spacing)
- Hydraulically driven fan
- Seed flow monitors
- Hydraulic bout marker
- Adjustable pressure harrow – hydraulically operated
- Semi-pneumatic seed packer
- Fully integrated drill management system
- Independent pressurised seeding arms coupled with adjustable wheel for very accurate seed depth across the field
- A choice of seeding widths with the Select series
