All participating dealers can be found on pages 12 - 15.

DON'T GET CAUGHT OUT IN THE DARK

AGCO dealers are able to offer a range of over 350 different batteries for all types of vehicles.

FIND OUT MORE AT THE LOCAL PARTS COUNTER

LOOKING AFTER YOUR AGCO PARTS BATTERY

Inspection

- Examine the outside appearance of the battery; the top, terminals and connections should be dry, clean and free of dirt or corrosion
- If there is liquid on the top of an open top wet flooded battery, then this may mean that the battery is being over-watered or overcharged
- Keep sparks, flames and metal objects away from batteries and do not smoke near batteries when carrying out any checks

Storage

- Batteries should be fully charged before placing in storage
- Store in a cool, dry location, in an upright position
- Disconnect from equipment to eliminate potential parasitic loads that may discharge the battery if the equipment isn't being used for long periods
- Batteries gradually self-discharge during storage. Monitor the specific gravity or voltage every 4-6 weeks and recharge if required
- When batteries are taken out of storage, it is advisable to recharge before use

How to Maximise the Performance of your AGCO Battery

- Follow all the correct procedures for installation, maintenance and storage of your AGCO battery
- Do not discharge your battery more than 80%. This safety factor will eliminate the chance of over-discharging and damaging the battery
- If you have any questions or concerns about battery care, please contact your local AGCO dealer

YOURTYRE

**Premium performance,
with your personal touch.**

Have you ever thought about personalising your tractor tyres? Now, with YourTire by Trelleborg you can. And we have made it easy for you. Either contact your AGCO dealer or go to trelleborg-yourtire.com and with a few clicks you can make your tyres unique.

Just follow 4 easy steps:

- 1 Select your Trelleborg tyre**
- 2 Add your text**
- 3 Save your configuration**
- 4 Notify your AGCO dealer of the YourTire code**

trelleborg-yourtire.com

TLC Plus
Load Calculator Plus.
Master of farming productivity.

Adopting the right pressure can reduce farming variable costs by over 20%. The TLC Plus App is an advanced sensor-based check-up system which measures the gap between the optimum tyre pressure and the actual tyre pressure of your tractors. Discover more on trelleborg.com/wheels/TLCPlus

Just follow 4 easy steps:

- 1 Download the App, register and get the TLC Plus Kit**
- 2 Configure your machine fleet and install the TLC Plus Kit**
- 3 Check the tyre pressure**
- 4 Adjust the tyre pressure and run the check-up again**

ARE YOU READY FOR WINTER?

Our range of Antifreeze products are formulated specifically to provide protection all year round.

Our products not only ensure effective cold start, but the balanced blend of rust and corrosion additives contribute to cooling system integrity.

Available in 1ltr, 5ltr, 20ltr, 205ltr & 1000ltr (product dependant)
