SPOTLIGHT ON THE 7719S THE LATEST NEXT EDITION FROM MASSEY FERGUSON

The exclusive Massey Ferguson NEXT Edition specification is now available on one of MF's most popular model, the MF 7719 S Dyna-VT which was awarded Machine of the Year 2019.

Massey Ferguson has created the 'NEXT Edition' versions by combining elements of the MF 7700 S Exclusive packages with further performance and comfort enhancing features, wrapped up in an exclusive and distinctive livery.

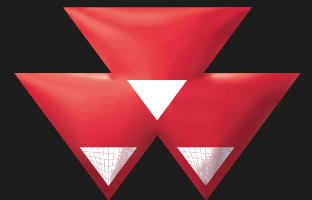

This straightforward package delivers unrivalled levels of performance and great value for money to enhance productivity for mixed, arable farmers and contractors.

The NEXT Edition model takes customers to the NEXT level of performance and straightforward dependability - when it comes to getting the job done on the farm, whilst offering great value for money.

The NEXT Edition specification adds a distinctive and exclusive touches inside and out. This tractor features a unique 'NEXT Edition' emblem on the bonnet, as well as an exclusive plate inside, which shows its special, 'limited NEXT Edition' build number. NEXT Edition models come in the iconic MF red colour, but with distinctive black grilles as standard. For those looking for further exclusivity, they can also choose a full black livery for the same price.

SPEC INCLUDES:

- AGCO POWER 6.6 litre/ 6 cylinder SCR engine
- Max Power @1,950rpm 190hp
- Max Power with EPM @1,950rpm 220hp
- Dyna-VT CVT Transmission
- New standard tyre sizes
- SpeedSteer
- Auto Guide ready

SKY EASYDRILL HD DEMOS

The innovative Sky EasyDrill HD has been on a tour across C&O's region, demonstrating to customers in Sussex, Hampshire, on the Isle of Wight and in Dorset. The Drill was drilling Winter Wheat into a variety of different field conditions.

The EasyDrill is one of very few direct drills that can truly be advocated as a direct, a min-till, a grassland and a cover crop drill, in addition it can also be used in conventional systems, on well consolidated ploughing. The low disturbance disc coulters and

press wheel not only ensure minimal weed seed germination, they also keep hp requirement to a minimum. A 6m EasyDrill typically takes 200hp to pull which reduces fuel consumption and tractor weight and consequently reduces damage to the soil structure when drilling in damp conditions.

To see the demos in action visit www.youtube.com/candottractorsLtd or visit www.sky-agriculture.co.uk for more on the Sky EasyDrill HD.
