

C&O EXPAND INTO SOMERSET DELIVERING MASSEY FERGUSON AND KVERNELAND FROM NEW DEPOT

**C&O TRACTORS YEABRIDGE FARM,
SOUTH PETHERTON SOMERSET, TA13 5LW
01460 241 286**

C&O Tractors is expanding its operating area across the South West with the opening of a new C&O depot in Somerset. The new C&O site at South Petherton will support customers in Somerset with tractors and machinery from Massey Ferguson and Kverneland.

‘It is really exciting for C&O to move into Somerset for the first time in our 20 year history. Customers in Somerset will benefit from the resources and experience we have within the C&O Group, not just with tractors but the wider Massey Ferguson range including Combine Harvesters, balers and haytools. Added to that we will also be delivering Kverneland machinery in south and central Somerset,’ explained C&O managing director Andy Coles.

‘2022 marks 175 years of Massey Ferguson

heritage and C&O are really proud to be continuing that legacy. I’m looking forward to getting to know the customers in our new business area and supporting the agricultural industry in Somerset,’ added Andy.

William Judge, brand manager at Massey Ferguson UK/Eire & ME said; ‘We are delighted that C&O Tractors Ltd has expanded and will be opening a branch at South Petherton, further strengthening its services throughout the area, offering continued, excellent customer service, aftersales and product availability. Since joining the AGCO family, C&O has continued to go from strength to strength and has proven to be a valued and trusted partner, with many more years to come.’

The expansion means C&O will supply Kverneland equipment to customers in south

and central Somerset. The Kverneland range includes an extensive selection of soil preparation and seeding equipment, grass and forage products, diet feeders, fertiliser spreaders, sprayers and precision farming technology. Kverneland managing director Joe Bell is confident about the expanded territory and said ‘this expansion creates an opportunity for new business in addition to supporting existing Kverneland customers in the south and central Somerset area.’

C&O is taking on the South Petherton site and Massey Ferguson trading area from MST. The existing staff at South Petherton will be joining the C&O team which is run from headquarters in Blandford, Dorset and serves customers across the South coast from depots in Wiltshire, West Sussex and on the Isle of Wight.

MASSEY FERGUSON

MASSEY FERGUSON

NEW LOOK FOR THE ICONIC MASSEY FERGUSON TRIPLE TRIANGLE

In 2022 Massey Ferguson will celebrate the 175th anniversary of Daniel Massey's first farm equipment workshop in Canada. Updating the iconic triple triangle is one way that Massey Ferguson are celebrating the brands heritage and looking to the future. The triple triangle was first introduced in 1958, with the three elements representing Massey, Harris and Ferguson. Those three triangles remain and highlight the beneficial relationship and trust between farmers, dealers and Massey Ferguson.

"We want to use this new logo to invite farmers, more than ever, to become part of the Born to Farm Massey Ferguson

family. We also took this opportunity to transition to a modern, sleek and flat design while giving the logo life through the interaction of three triangles interlocking one into the other. Massey Ferguson is now pivoting from being a pure farm machinery manufacturer into a provider of straightforward and dependable experiences that provide the best value for farmers and make their business more profitable and sustainable. This globally consistent, farmer-first approach enables customers to experience the transformation of the brand in a unique way all over the world. Complemented by a synchronized Global organization, it was only natural to launch a new logo during this unprecedented moment in our history." says Alfredo Jobke, Director Marketing Global Massey Ferguson.

Customers will see the new logo roll out throughout 2022.

THANK YOU FOR YOUR SUPPORT IN 2021

SANY AT C&O

STOCK AVAILABLE

5 YEAR WARRANTY*

Dorset & Hampshire - Allan Feltham - 07908 262 833

West Sussex - Philip Prior - 07842 365 265

Isle of Wight - Lee Priddle - 07725 813384

VALUE: Return on investment is key and that's why SANY want to provide products which help you move more muck for less!

- **FULL KVERNELAND PRODUCT LINE AVAILABLE FROM ALL C&O DEPOTS**

- **FULL PARTS SUPPORT AVAILABLE FROM ALL DEPOTS**

- **2 YEARS WARRANTY**

THE CYCLE ON YOUR FARM IS RELENTLESS. YOUR MACHINERY IS VITAL

Ask us about creating a full service plan for your MF machine

- You know how hard you and your machine work throughout the year.
- Over time your machine can lose efficiency. You may not notice it happening, but without intervention, you could lose be losing engine power and increasing fuel usage.
- A poorly maintained machine has been shown to lose 5 - 15% of fuel efficiency.
- Simple things, like a clogged or inferior air filter can contribute, and could be costing you hundreds in increased fuel usage.
- Making time for preventative maintenance is a time, and money saver, in the long run.
- If you don't already have a service plan for your machine, and it hasn't been looked at for a few months, we can recommend the best service and inspection options for your machine.
