THE NEW ISUZU D-MAX

READY FOR EVERYTHING

No matter what's around the corner, The New Isuzu D-Max DL20, DL40 and V-Cross are fully prepared for every terrain.

Work ready. Life ready. On and off-road ready. Isuzu's award-winning pick-up is equipped with even smarter styling, stronger performance and safer technology. Delivering the reassuring capability and durability you expect from Isuzu, our tough workhorse takes comfort and refinement to the next level.

*5 year / 125,000 miles (whichever comes first) warranty applies to all new Isuzu D-Max models.

READY ON THE OUTSIDE

Bold, aggressive styling has gone into The New Isuzu D-Max. Revitalised with a more muscular radiator grille, hood and bumper, 18" alloy wheels and distinctive colours—including a striking new Sienna Orange hue for the V-Cross—it brings fresh attitude, and then some.

New look automatic Bi-LED headlamps with High Beam Assist and automatic windscreen wipers ensure safe and easy manoeuvring, together with front and rear parking sensors, as well as a reversing camera. Keyless entry and dark grey side steps provide convenient access, while the new tailgate design incorporates prominent triple shield taillights and a damper to aid the gentler opening of the load bed.

READY ON THE INSIDE

For optimal comfort, high-grade cloth and leather heated seating is complemented by a newly designed steering wheel bezel and door trim insert. The DL40 and V-Cross also enjoy an 8-way electrically adjustable driver's seat with power lumbar support.

Viewed on a 9" touchscreen*, the updated, fully wireless infotainment system features DAB, Bluetooth®, Apple CarPlay™ and Android Auto™, as well as a new digital 7" driver display**.

Further enhancements to improve your journey include a new Digital Reversing Camera, Traffic Sign Recognition (TSR) and Tyre Pressure Monitoring System (TPMS) updates, Dual-zone climate control**, and updated USB C ports for passenger convenience. The roomy cabin can also be set up for any expedition with flat folding rear seats and several storage spaces.

*Improved 8" on DL20 & DL40. **DL40 & V-Cross exclusive.

ADVANCED DRIVER ASSIST SYSTEMS (ADAS) ENHANCEMENTS

REDESIGNED STEREO CAMERA COVER

For better protection, and added heater to improve visibility when windshield steams up.

IMPROVED TARGET RECOGNITION

Identifies pedestrians, cyclists, motorcycles and other vehicles with greater speed and accuracy.

HORIZONTAL FIELD OF VIEW INCREASE

From 40 to 120 degrees
(distance increase from
120m to 150m).

IMPROVED AUTO EMERGENCY BRAKING

Predictability feature
added on turn assist
irrespective of turn
signal being on or off.

NEW INTELLIGENT ADAPTIVE CRUISE CONTROL (IACC)

Uses speed limit information to
set adaptive cruise control speed,
and when vehicle is in reverse,
travelling at less than 10km/h.

NEW TRAFFIC SIGN RECOGNITION (TSR) FUNCTIONS

- Motorway / expressway
- Shared precinct
- Give way
- Stop

ATTENTION ASSIST

Uses sensors to learn about your driving habits and can detect if driver fatigue is causing you to lose focus behind the wheel.

AT PEDAL MISAPPLICATION MITIGATION²

Will suppress engine torque and issue a visual and audible warning if the driver suddenly accelerates in front of an object.

AUTONOMOUS EMERGENCY BRAKING

Automatically applies the brakes to either prevent an accident or reduce the severity of an impact depending on speed.

BLIND SPOT MONITOR¹

Detects vehicles in the driver's blind spot and alerts via an orange warning light in the door mirror.

EMERGENCY LANE KEEPING

If there is a vehicle in the driver's blind spot when changing lanes, the system will adjust the steering direction to prevent the lane change and avoid the collision.

BLIND SPOT MONITOR¹

FORWARD COLLISION WARNING

Monitors the road ahead and alerts the driver of a potential collision.

INTELLIGENT ADAPTIVE CRUISE CONTROL

Enables the driver to set both the desired speed and the distance to the car in front. Allows to automatically set the speed target in conjunction with Traffic Sign Recognition system.

INTELLIGENT SPEED LIMITER

Keeps vehicle speed below the speed limit of the road it is travelling along.

LANE DEPARTURE PREVENTION

Adjusts steering direction to help prevent lane departure if the vehicle is about to depart its lane without indicating.

LANE DEPARTURE WARNING

Alerts the driver if they are about to drift out of their lane.

REAR RADAR¹

LANE KEEP ASSIST

Detects lane markings and makes necessary steering adjustment to help keep the vehicle in its lane.

REAR CROSS TRAFFIC ALERT & BRAKING¹

Detects vehicles approaching from the left or right while reversing out of a parking space with emergency braking system.

TRAFFIC JAM ASSIST

Used in conjunction with Intelligent Adaptive Cruise Control, the assistance system helps drivers navigate traffic jams.

TRAFFIC SIGN RECOGNITION

Reads standard road signs ahead and displays any change in speed limit on the Multi-Information Display.

TURN ASSIST

If the stereo camera detects a potential collision with an oncoming vehicle or pedestrian while turning at an intersection, the system automatically engages the brakes.

STEREO CAMERA

ALL SET FOR ALL TERRAIN

Our all-purpose range is ready and able in every environment. Towing up to 3.5 tonnes, the diesel engine generates 360Nm of torque and 164PS when paired with a 6-speed manual or automatic transmission. Sensors detect trailer swing and lower speed if any sway is identified, while the refined suspension improves ride quality without compromising a payload of more than one tonne.

Each model also sports the latest generation of Rough Terrain Mode (RTM), an off-road traction control aid that works with the Rear Differential Lock to maximise torque-transfer and driveability. It modulates brake force to individual wheels when slip is detected and proportions torque to the wheels with the most grip, enabling you to tackle the steepest, rockiest surfaces.

The capabilities don't stop there. Equipped with a 4WD Shift-On-The-Fly system, and wading depth of up to 800mm, it's all built on a sturdy ladder chassis with underbody protection coverings. That's why the D-Max comes with an impressive 5-year, 125,000-mile warranty.

READY TO GO

An all-round go-getter, the DL20 makes hard work look easy.

Available in double cab and extended cab variants.

THE NEW ISUZU D-MAX

DL20

EXTERIOR

- New Design Black & Medium Grey Radiator Grille
- New Design Halogen Headlights
- New 18" Silver Alloy Wheels
- Automatic Headlights with High Beam Assist
- Full Size Spare Wheel
- Front Fog Lights
- Automatic Windscreen Wipers with Rain Sensor
- Tailgate Damper[^]
- Body Coloured Front Bumper

Emissions Class				Euro 6D			

¹MPG figures are EU test figures for comparative purposes and may not reflect real driving results. There is a new WLTP test used for fuel consumption and CO₂ figures. The fuel consumption and CO₂ emissions shown are based on the WLTP testing method. Only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical standard. The fuel consumption you achieve in real life conditions and CO₂ produced will depend upon a number of factors including accessories fitted (post-registration), variations in weather, driving styles and vehicle load etc. ²Maximum payload capacity as defined by HM Revenue and Customs for VAT purposes. Payload is gross vehicle weight minus kerb weight. Kerb weights quoted are for vehicles with standard specification. Kerb weight and payload may be influenced by badge level, factory options and dealer fitted accessories. It is the responsibility of the vehicle operator to ensure their vehicle is legally compliant for road use.
